

TOILET SOLICITATION SERVICE REQUIREMENT

D.2.1.1, Portable Toilets, has been updated to read, “Service(s) will be determined by the Incident Management Team. All service calls will be paid in accordance with the Lump Sum pay Item in D.21.8.1(d) and labeled as ‘Additional Service Calls’ on the schedule of items.”

This rate, which is listed under portable toilets on the schedule of items, applies to every service call made to every resource (portable toilet, handwash station, wheelchair accessible toilet) on an incident.

Vendors may have multiple resources listed under multiple dispatch centers. The applicable service call rate is the ‘additional service call’ rate listed on the schedule of items under portable toilets from the designated dispatch center it was ordered from.

Example: Vendor is at an Incident on the Sierra National Forest. Vendor’s schedule of items includes resources listed under multiple dispatch centers. Service calls made to portable toilets, portable handwash stations and portable wheelchair accessible toilets will be made at the ‘additional service call’ rate listed under the portable toilets for the Sierra NF dispatch center.
